The downstairs living zone features a lounge, dining, and kitchen area, all grounded in warm Tasmanian Oak floorboards. This flows seamlessly through glass sliding doors into a large, north-facing private courtyard. Beyond that is a spacious garden that gets the balance right between low maintenance and the warm feelings you only get when surrounded by nature. It's ideal for parents or grandparents who want to provide a healthy outdoor space for kids to be active and play, or for pets. Another feature of the garden is a charming curved arbour that sets off the property's street appeal.

The bedrooms are generously sized. The downstairs bedroom has built-in robes and is adjacent to a bathroom. Upstairs, two large bedrooms also have built-in robes, with one featuring a balcony offering tranquil tree-lined views of the neighbourhood.
