REMOTE ACREAGE ACCESSIBLE BY FOOT ONLY

Located alongside the picturesque Wentworth River, this unique 41-acre property offers a rare opportunity for those seeking true seclusion. A mix of bushland and cleared areas, this remote block is accessible only by foot through the bush with no tracks, making it the perfect escape for avid campers, hunters, or anyone looking to disconnect from the modern world. The best access is parking at Gidleys Track and walking in but you will need a 4X4 to get to Gidleys Track as the road is currently very slippery and steep. Surrounded entirely by crown land, the property guarantees privacy and an untouched natural setting. Rich in history, it was once home to the Sinnott family from 1883 to the early 1900s, with remnants of their hut still visible today. Whether you're drawn to its historic charm, the abundant wildlife, or the peaceful river setting, this is a special piece of land for those who value solitude and adventure.
