Open for Inspection
Sat, 17 Oct 2026 - 12:00 PM to 12:45 PM

THE STORY.

There's a moment when you first walk through the door that immediately sets these homes apart. The impressive 2.7m square-set ceilings, 2.4m-high joinery and abundance of natural light create a sense of scale you simply don't expect. It's an immediate first impression, and one that only gets better as you move through the home.

Designed by K Architecture and built by Hoogenhout Constructions, these two brand-new residences deliver something genuinely special to Mudjimba. The space and practicality of a family home, the sophistication of contemporary coastal architecture and the freedom of a low-maintenance lifestyle.

Across two generous levels, each residence offers approximately 154m² of internal living, three bedrooms, two and a half bathrooms, a double garage and a separate upstairs media or study area.

Downstairs, the kitchen, dining and living spaces come together beautifully. Sweeping stone benchtops, warm timber cabinetry, quality appliances and a carefully considered coastal palette create a space that feels sophisticated without trying too hard.

Expansive glazing brings the outdoors in, connecting the main living area to a private entertaining terrace, landscaped surrounds and your own plunge pool. It's a natural extension of the home, designed for long afternoons, easy entertaining and everything in between.

Upstairs, the sense of space continues. Three bedrooms and a second living area offer genuine flexibility for families, visiting guests or those working from home. The bathrooms are equally impressive, with beautiful finishes, contemporary fixtures and the same attention to detail found throughout.

And while the architecture makes an impression, the practicality is just as appealing. Double garages, completed landscaping, easy-care outdoor spaces and no traditional body corporate levies, with shared building insurance arrangements.

No renovations. No building delays. No previous occupants.
Just a beautifully finished home, ready for its very first chapter.
