The large rectangular allotment is a true lifestyle escape, featuring multiple dams, fenced paddocks and the tranquil waters of Browns Creek meandering through the property. Take a walk around the grounds and you'll discover an abundance of wildlife, established fruit trees and even perch in the creek.

Over the years, the property has been used for growing small crops and running both cattle and horses, making it well suited to buyers looking for room for animals, hobby farming or simply the freedom that comes with acreage living. There may also be potential to generate additional income through agistment.

At the heart of the property is a classic Glenbar high-set home, showcasing hardwood timber floors and frame. The upper level offers three bedrooms, an updated bathroom and a generous lounge opening directly onto the wraparound verandah – the perfect place to sit back and enjoy the peaceful surrounds.

Downstairs provides even more versatility, with a large rumpus area ready for the new owner to make their own, a second full bathroom, double garage and additional covered space beneath the verandah.
