Designed with the growing family in mind, the flexible floorplan offers space and functionality in abundance. The master suite is a private retreat, complete with a walk-in robe and ensuite, which comes with brand-new fittings still in the box—giving you the exciting opportunity to personalize it to your style. The three minor bedrooms are generously sized with built-in robes, while the fifth bedroom offers flexibility as a home office, nursery, or guest room. Adding to the convenience, a dedicated kids' activity room sits between two of the minor bedrooms, creating a perfect space for play, study, or relaxation. Throughout the home, stylish updates elevate the aesthetic, including new timber-look flooring, all new internal doors, sleek black-out blinds, and black-tinted windows for added privacy and sophistication.

At the heart of the home is a brand-new kitchen, installed less than a year ago, designed to cater to both everyday living and grand entertaining. Featuring sleek black hardware, ample storage, a double fridge recess, a microwave recess, a new wall oven, and a dishwasher, this kitchen is both practical and stylish. Before reaching the open-plan living and dining area, a spacious theatre room at the front of the home provides the ideal setting for cozy movie nights or a quiet escape from the main living space.
