A Rare Find – Home and Studio

This is more than just a property – it's a home that has been lovingly shaped with care, vision and attention to detail. Behind the secure electric gate sits a solid clay brick residence paired with a stylish, freestanding studio, both sharing a neat driveway and a sense of harmony.

The three-bedroom, one-bathroom home is fresh, modern and easy to maintain. Timber-look vinyl flooring, quality roller blinds and double-glazed windows (to all but the rear) ensure comfort and style. The kitchen features a new oven, gas cooktop, dishwasher, generous storage and a breakfast bar perfect for food prep or casual entertaining. The upgraded bathroom and separate toilet impress with their finish, while the home has been freshly painted inside and out. Climate control is effortless with split systems installed throughout.

The studio is cleverly designed and fully self-contained (sharing only the laundry with the main home). With a built-in kitchenette, including dishwasher, modern bathroom and its own split system, it's perfect for extended family, independent teenagers, guests, or even generating passive income.

Outdoors, enjoy the new timber deck with shade sail, established low-maintenance native gardens, tranquil fish and lily pond, and an accessible vegetable plot. A handy workshop and covered carport with extra workspace complete the picture.

Solar panels help keep electricity costs down and solar hot water is a bonus. The studio has its own electric hot water system. Security screens, auto shutters and high fencing provide peace of mind.

Whether you're seeking a versatile home with room for family, or a business base this is a rare opportunity that delivers on every level.
