Inside, the home is filled with natural light and offers a practical three-bedroom layout with separate lounge and dining areas, a sunroom and a useful office nook. The kitchen and bathroom have been updated, while the home also presents scope to further renovate or extend to create your dream home.

The north-facing rear is a particular highlight, with a covered back verandah opening to a substantial enclosed yard framed by established trees. Private from the road, the outdoor space provides an unusual sense of seclusion for a property so close to everyday amenities.

A separate garage and workshop space adds another dimension to the property, providing valuable room for storage, hobbies or projects. Combined with the substantial block, it is a setting that offers both the space to enjoy now and the opportunity to improve over time, whether as a first home, a renovation or an investment.
