Modern Living with Drive-Through Access

Positioned in a sought-after pocket of Southern River, this freshly updated home offers space, functionality and space and comfort - all with the bonus of drive-through access to the rear for your cars caravan and much more.

Open for Inspection

Sat, 07 Mar 2026 - 11:15 AM to 11:45 AM
Sun, 08 Mar 2026 - 11:15 AM to 11:45 AM

From the outset, the home presents neat and inviting. Inside, you're welcomed by light and bright modern interior that's ready for its new owners to move straight in and enjoy.

The layout has been thoughtfully designed for practical family living. At the front of the home, the designated home office/study provides the perfect space for those working remotely, running a business from home or even needing a quiet study zone for the kids. It's privately positioned away from the main living areas, allowing focus and productivity.

The master suite is also positioned at the front, complete with a walk-in robe and private ensuite, offering a peaceful retreat for the homeowners.

The secondary bedrooms are all generously sized, each with built-in or designated robe space, making them ideal for children, guests or extended family. These rooms are serviced by a well-appointed main bathroom, centrally located for convenience. The main bathroom features a separate shower and bathtub - perfect for families - along with a separate WC to accommodate busy households.

Moving toward the heart of the home, the open-plan family, dining and activity area flows seamlessly from the kitchen, creating a central gathering space for everyday living and entertaining.

One of the standout features of this property is the drive-through access to the backyard - a rare and valuable inclusion. Whether you need secure parking for additional vehicles, a trailer, boat, or you're looking to build a powered shed at the rear (STCA), this home offers the flexibility to make it happen.

The backyard provides ample space to customize to your needs, whether that's entertaining, storage or future additions. To complete the package, the home is fitted with solar panels, helping to reduce electricity costs and improve energy efficiency year-round.

Key Features:

Drive-through rear access

Potential to build work shed at the rear (STCA)
