House 3 1 1

SICK OF BRICK? Natural timbers, high ceilings and views

This timber three bedroom cottage has views through the gums to the north. The extensive back deck is the perfect place to share a wine after a long hard day. It looks across the 1100 sq m block to a 5 hectare nature reserve and beyond. There are solid timber floors throughout and high ceilings. All three bedrooms have sliding doors onto the deck. There is room for a market-sized garden or orchard below the house.

Carramar Drive is a quiet cul-de-sac but is just over 1 kilometre from the new Aquatic Centre, Coles and the Big W. Sick of brick? Inspect this one. LN:2519
