Open for Inspection

By Appointment.

There's something really refreshing about a home that simply makes life easier... and this one absolutely delivers.

Packed with practical extras, generous spaces and enough room for all the vehicles, tools, trailers and weekend toys, this is the kind of property that quietly ticks every box while still feeling warm, welcoming and genuinely homely.

Upstairs, the heart of the home opens into a light-filled living and dining zone where everyone can spread out comfortably without losing that connected feel.

The modern kitchen sits right in the centre of it all, complete with electric cooktop and plenty of room to keep daily life running smoothly.

Three generously sized bedrooms offer relaxed accommodation, with two featuring built-in storage, while ducted air conditioning throughout the upper level keeps things comfortable year-round.

Then there's the outdoor spaces... because every great Queensland home deserves a good deck or two. Start the morning with coffee on the welcoming front deck or wind down out the back on the fully insulated rear deck, a private retreat designed for entertaining, lazy weekends and everything in between.
