By Appointment.

If you've been holding out for a home that genuinely delivers on space, quality and lifestyle, this is one that's going to feel like it was worth the wait.

Only seven years young and thoughtfully built by Stroud Homes, this impressive residence offers all the benefits of building-without the time, stress or rising costs- and is presented as exceptional value.

From the street, the home immediately makes an impression with its commanding presence and wide frontage, something the locals have come to admire. Step through the grand portico entrance and you're welcomed into a home that feels open, inviting and incredibly well designed. With an expansive 522m² under roof, there's a real sense of space here that's hard to find.

At the centre of the home sits a standout kitchen that truly anchors the living areas. Featuring thick stone benchtops, an oversized oven and a generous island bench, it's the kind of space where everyday living and entertaining come together effortlessly. The kitchen has been elevated with a sleek new Westinghouse induction cooktop and electric oven, while a premium Zip tap delivers instant hot, chilled and sparkling water at your fingertips.

For those who love a bit of extra room behind the scenes, the butler's pantry is a game changer-complete with its own sink, dishwasher and an entire wall of storage.
