Boasting eight bedrooms and two bathrooms (one on each level), as well as three toilets. The home has been cleverly designed to accommodate multiple living arrangements. The upper level features four bedrooms plus a study, a fresh, vibrant open-plan kitchen with ample bench and cupboard space, and a modern, renovated bathroom. The lower level offers four additional bedrooms, its own bathroom, and easy access to expansive living zones—making it ideal for dual occupancy or guest accommodation. This home also features two laundries and an upgraded electrical box with generator outlet.

At the heart of the home is a huge family room, complemented by three internal stairway access points for seamless flow between levels. Beautiful polished timber floors combine with tiled areas to create a warm yet practical finish throughout.

Step outside and enjoy year-round entertaining with a large covered patio and a partially covered outdoor entertaining area, overlooking a spacious yard framed by privacy hedging—plenty of room for kids and pets to run free. Three covered carports complete the package.
