A Private Luxury Villa in a Native Sanctuary

Exclusive Pre-Launch Viewing Friday 21st 5pm

Contact Agent to Register Attendance

30 Carolyn Jackson Drive presents an outstanding opportunity to secure a luxury native villa where sophisticated living, breathtaking views and a deep connection to nature come together. Set high above the surrounding landscape, this exceptional five-bedroom residence combines expansive city and mountain vistas, a resort-style saltwater pool, beautifully landscaped native gardens and seamless indoor-outdoor entertaining.

With direct access to Jerrabomberra Reserve and abundant wildlife on the doorstep, the elevated position captures exceptional views across the city and surrounding landscape, with Black Mountain and the Telstra Tower forming part of the panorama.

Designed with a north-facing orientation, double glazing and generous eaves to make the most of passive solar energy, the home has been thoughtfully created for comfortable living in every season. Add an impressive 11.5kW solar system with 10kW battery storage, and modern efficiency becomes part of everyday life rather than an afterthought.

Five bedrooms provide ample space, with two featuring built-in robes. The master offers a private retreat with a large walk-in robe and a luxurious ensuite, complete with a freestanding bath with outdoor views, dual walk-in shower, his-and-her sinks and underfloor heating. The main bathroom is equally impressive, designed as a spacious full wet room with waterproofing extending to the ceiling.

There are two living areas, while a beautifully positioned study/office with bespoke cabinetry captures an abundance of natural sunlight. The large kitchen sits at the heart of the home, with plenty of storage, Bosch appliances, induction cook-top, vast island bench, new oven and a large walk-in pantry.

Two premium Daikin reverse-cycle ducted air-conditioning systems provide year-round comfort, with individual room thermostats. The home's sophisticated security system includes touchscreen controls, individual internal room sensors and six external cameras. Both systems can be monitored and controlled remotely providing reassurance whether you are home or away.

Outside, the covered alfresco and paved BBQ entertaining areas overlook the low-maintenance saltwater pool, featuring passive solar heating, continuous chlorination, a Wintergreen custom cover, Hayward TigerShark robotic cleaner and new fencing.
