

305 Steere Street North Nth, Collie, WA 6225

Sold - 10/04/2026

House 5 2 2

Elegance Woven in Stone

From the moment you roll up the sweeping asphalt driveway, you can feel it, this is no ordinary home. Set on a commanding 2,466sqm block and sprawling across roughly 550sqm under roof, this residence stands as one of Collie's finest examples of architectural craftsmanship and scale.

Open for Inspection

By Appointment.

Beyond the lush gardens and classic brick facade, double stained glass doors open into a world of understated luxury. High ceilings and ornate cornices frame every space, with American oak cabinetry, Jarrah trims, and hand finished features bringing warmth and elegance to each room. The Donnybrook stone fireplace sets the tone in the formal living a statement of both strength and comfort, housing a vintage built in wood burning fire that draws the eye as much as it warms the soul.

The kitchen is a true centerpiece, combining timeless materials with modern upgrades, granite benchtops, slate tiling, walk in pantry, central island bench, and high end appliances, all bathed in natural light. It connects effortlessly to open plan living and dining zones, with classic fishbone cut Jarrah flooring anchoring the heart of the home in enduring style.

There are two dining areas and two distinct living zones one formal, one casual giving families or entertainers space to live, host, and unwind. Each of the four bedrooms is generously proportioned, complemented by a large home office or fifth bedroom, all designed with space and storage in mind. The main suite is a retreat of its own, with a fully renovated ensuite boasting double vanities, modern finishes, and a serene palette.

Throughout the home, you'll find ceiling roses, decorative cornices, polished Jarrah floors, and leadlight door panels, nods to classic design that never go out of fashion. Step outside and the story continues wraparound verandahs, manicured lawns, and private garden paths wind through established greenery, a sanctuary for both family life and quiet reflection.

For those needing space to create, store, or tinker the property delivers in full. A massive double brick garage with automatic roller door, extra-height clearance, and workspace bays on both sides is paired with a near new color bond workshop with roller door access, perfect for additional vehicles or projects.

Recent updates include fresh landscaping, new high end window treatments, and a modernized kitchen and ensuite seamlessly blending heritage charm with contemporary comfort.

Properties of this calibre rarely reach the market especially in such an enviable location
