Gracious East Side Family Home - Walk to Rail and Shops

Set upon a remarkable 1,075sqm corner parcel, this is a home of enduring character — where crafted sandstone, exposed timber and streams of natural light speak quietly of another era, while generous proportions create a wonderful canvas for family life today.

Sprawling through the entrance, a grand formal lounge makes an immediate impression, where a finely crafted Hawkesbury sandstone fireplace, exposed timber and a skylight bring warmth, texture and natural light to the space. From here, a provincial-inspired kitchen, framed by elegant Shaker cabinetry, connects seamlessly with the banquet-sized formal dining room, before extending onto an expansive tiled balcony that captures a beautiful northerly outlook.

Also arranged across this level are four generous bedrooms and a dedicated study, with two of the bedrooms opening directly onto the central balcony, allowing the leafy outlook and northern light to be enjoyed all year round.

The lower level adds another layer of versatility, featuring an expansive billiard room alongside additional accommodation complete with a full bathroom and kitchenette — an ideal arrangement for guests, extended family or independent living.

Beyond the interiors, landscaped grounds unfold gently across a series of garden terraces, creating distinct pockets to relax and enjoy the home's natural surrounds. Its prized corner position, approximately 22m x 36m frontages, and four-car carport further reinforce the exceptional scale of the property.

For all its sense of space and seclusion, everyday convenience remains remarkably close — approximately 600m from Gordon Station and cafes, 700m from Gordon Centre and local shops, and within the catchments for Gordon East Public School and Killara High School.

Rich in character, generous in scale and quietly embraced by nature, this is not simply a home to admire, but one whose next chapter is waiting to be written
