## Much Bigger Than You Think

Not a cent to spend this home is in perfect condition. The current owners have lived here happily for 5 years and have renovated the home throughout. The well equipped kitchen is big and sunny and has lots of cupboards and a dishwasher. The bathroom is gorgeous with delightful blue décor. There is gas heating and reverse-cycle air conditioning for year round comfort. The bedrooms are big, 2 have built-ins, and the living space is very surprising for house in this price bracket. Big double garage and outdoor living and established gardens complete the package.
