- * Drying courtyard off the laundry and central courtyard off the living room
- * Separate front living room
- * Large master bedroom with ensuite and walk-in robe
- * Security screens throughout
- * Easy care low maintenance

Open for Inspection

By Appointment.

As you enter the home, park inside the rear double-car garage and enter straight through to the home from inside the garage or from the access gate adjacent. Walk up to the home from the main front entrance and enjoy the raised front patio, rock feature walls, massive windows, and undercover door area that will protect you from the elements.

Inside, you'll find a home with a large amount of living space, spread across multiple living areas. The main living area is connected directly to the dining and kitchen area, allowing for seamless interaction. Light simply pours into this part of the home as there are multiple windows strategically placed to optimize natural light. The floor of this main living space is adorned with attractive tiling, and LED lights keep the home bright at night. A wall-mounted split-cycle AC keeps the temperature comfortable. There is also a secondary living space that would be perfect as a theatre, home office, or entertainment area, with relaxing carpet flooring and a corner window that brings in ample natural light.
