Open for Inspection

By Appointment.

Welcome to a home that truly defines style and functionality in one of Ipswich's most sought-after flood free locations.

Often referred to as the home with the "Amazing lawns and gardens" this home has been meticulously renovated and maintained.

Stepping inside, the Palm Springs vibe is real!

Beach coloured hybrid flooring, extra high ceilings, plenty of natural light and a spacious floor plan will excite even the fussiest of buyers.

A main living space with an adjoining dining area leads to the modern kitchen with an induction cooktop, integrated dishwasher and a creative use of space for the budding chef.

This upper level of the home offers the first of two master bedrooms accompanied by two more great sized bedrooms. All three bedrooms on this level are easily serviced by a stunning main bathroom and the first of 3 toilets the home offers. One of these upper level bedrooms has a quirky play loft, perfect for the kids to have their own extra space.

A small staircase leads to the lower level of the home and the astute buyer looking for dual living will note a handy concealed door between the two levels of the home that can be closed for separate living. This light filled level showcases the well appointed laundry, a powder room, plus a supersized lounge room and second meals area. With high ceilings and an abundance of windows this large space gives massive "Hamptons Beachside" vibes.
