Welcome to Sintalla House - a home that truly stops you in your tracks.

Set in one of Ipswich's most loved and tightly held pockets, this stunning family residence has been completely transformed into something special.

Every inch has been thoughtfully renovated, blending modern comfort with timeless charm, and the result is nothing short of impressive. Homes of this calibre don't come along often in the Ipswich market.

Sitting proudly on a generous 612m<sup>2</sup> block in sought-after Silkstone, the street appeal alone gives you that instant "this could be the one" feeling.

Step inside and it only gets better. The interiors are warm, welcoming and beautifully styled, with a sense of sophistication that feels effortless rather than overdone.

The heart of the home is the open-plan kitchen, dining and living zone - a space designed for connection.

The kitchen is a standout with stone benchtops, electric cooking, loads of storage, dishwasher and a layout that makes everyday living (and entertaining) easy. This area flows straight into the fully air-conditioned living space, keeping things comfortable all year round.

Slide outside and you'll find a spacious alfresco area that feels like a natural extension of the home. Whether it's relaxed family dinners, hosting friends or simply
