By Appointment.

Hilary consists of 911.65 acres or 368.9 hectares with a mix of lifestyle appeal and grazing enterprise to add income. A three-bedroom cottage sits quietly within the landscape and is currently undergoing some renovation with the kitchen already showcasing some of the improvements that will elevate this cottage into a comfortable weekender.

The property includes two steel sheds: a 60ft x 30ft (18.2m x 9.1m) machinery shed and a 45ft x 40ft (13.7m x 12.2m) two stand shearing shed, small set of sheep yards, 2 x 20,000 gallon (approx. 90,900 ltr) water tanks, fenced into eleven paddocks, five dams including one dam equipped with a solar system pumping into a tank and troughing.

There is a very good spring located in the centre of the property, with approximately 50-100ac (20-40ha) of arable country, with the soils being of basalt derivative, with a great cover of sub clover. Average annual rainfall for this district is 620 mm per annum. The owner estimates a carrying capacity of Hilary to be approximately 1000 DSE, making it suitable for both cattle and sheep grazing enterprises.

Hilary offers the potential purchaser an affordable lifestyle grazing property with enormous potential.
