Great Apartment, Great Location!

What a great location! Live in luxury within walking distance of all the city centre has to offer.

The spacious two bedroom apartment is located on the fourth floor of the 'Space' complex. The main bedroom features an ensuite and a small, private balcony. The large built in wardrobe in the master bedroom is every girl's dream come true!

The second bedroom is located towards the front of the apartment, also with a good sized built in robe. Large sliding doors provide access to the balcony and flood the room with light. The main bathroom is just across the hall and features a shower over the bath.

The kitchen has plenty of storage space and features a dishwasher and electric cooking. The living area is spacious and open plan so the home chef can entertain guests from the kitchen. A wall of windows at the end of the living room opens onto the balcony, where you can sit and enjoy a glass of wine after work.

The property also features a study nook and a laundry that comes complete with a washing machine, dryer and tonnes of cupboard space.
