House 3  1 

Big Block, Big Potential – The Gap

This one needs some love. 3 bedrooms, 1 bathroom, sitting on a big block in a great spot.

If you're handy with the tools or know someone who is, there's real potential here. First home buyers, renovators after their next project, or investors looking for something to add value to — have a look at this one.

Open for Inspection

By Appointment.

What it's got:

- 3 decent-sized bedrooms
- Big shed out back
- Huge block — heaps of room to work with
- The Gap location — easy access to schools, shops and town

It's a solid old house on good land in a handy location. Just needs someone with vision and a bit of elbow grease.

Worth noting for investors that Alice Springs has a seriously tight rental market right now. Even as-is, there's tenant demand. Fix it up a bit and you're looking at even better returns.
