By Appointment.

Some homes are polished and perfect... and then there are homes like this - the ones with heart, potential and the kind of opportunity buyers get genuinely excited about.

Sitting proudly on a 784m² block, this lowset timber home delivers space, practicality and an impressive amount of storage and parking, all wrapped up in a property that still leaves room to add your own style and value over time.

From the moment you arrive, there's an inviting and down-to-earth feel about the place. The front deck creates the perfect welcome home moment and gives you a great little spot to enjoy a morning coffee, catch the afternoon breeze or simply slow things down at the end of the day.

Inside, the layout is comfortable, functional and family-friendly. The air-conditioned lounge room sits at the front of the home and offers plenty of room to spread out, relax and unwind.

Flowing through from here is the oversized timber kitchen - packed with storage, bench space and character - with the large central bench doubling beautifully as a breakfast bar, casual dining zone or the place everyone naturally gathers when entertaining. The adjoining dining area keeps everything connected and practical for everyday living.
