A Family Home With a Twist... and a Few Secrets!

Some homes you walk into and immediately know what you're getting.

This isn't one of them.

At first glance, it's a beautifully renovated, character filled family home. Three bedrooms, a gorgeous central two way bathroom, a stunning kitchen that really is the heart of the home, a private yard and a lovely verandah just begging for that first morning coffee.

But then... the adventure begins.

Take a wander down the garden path and you'll discover a separate studio — and this isn't your average garden shed! With the ability to convert into another bedroom and bathroom, it opens up a whole new world of possibilities.

But wait... there's another path.

Follow it and you'll find a completely independent two bedroom unit, with its own full kitchen, bathroom and living space.

Suddenly, what looked like one much loved family home has revealed multiple living options tucked away behind the scenes.

The family option:

Plenty of room for parents, kids and extended family without everyone being on top of each other.

The independent living option:

A place for parents, grandparents or adult children to have their own space while still being close.

The income option:

Live in the main residence and explore the potential of the separate accommodation for additional income.

The lifestyle option:

Enjoy the character, gardens, privacy and charm of a home that keeps surprising you.

It's the kind of property where you think you've seen it all... then you discover another door, another pathway and another possibility.
