By Appointment.

6 Tucker street showcases striking Scandinavian-inspired architecture, this exceptional residence from Thompson Sustainable Homes' exclusive BARN Series redefines modern living with a seamless fusion of natural textures, timeless design and refined luxury. Perfectly positioned within the highly sought-after Aura community.

From the moment you arrive, the home evokes a sense of calm and understated elegance. A beautifully crafted timber-lined front porch warmly welcomes you, setting the tone for what lies within an environment designed to embrace both comfort and connection.

Inside, a light-filled hallway guides you past three generously proportioned bedrooms, enhanced by feature Laminex wall panelling and designer lighting, before revealing the breathtaking heart of the home. Here, soaring gabled ceilings and a dramatic wall of windows create an extraordinary sense of scale, flooding the space with natural light and effortlessly blurring the line between indoors and out.

Inspired by the Scandinavian way of life, the Nissa design captures a quiet, authentic lifestyle, where simplicity meets sophistication. Natural timber-lined walls and ceilings flow throughout the living spaces and into the expansive alfresco, creating a cohesive and inviting atmosphere reminiscent of a modern rustic retreat.

At the centre of the home, the designer kitchen is both elegant and functional, featuring premium Laminex cabinetry, luxurious Essastone benchtops and thoughtfully curated finishes. Overlooking the open-plan living and dining area, it connects seamlessly to the outdoor entertaining zone, complete with a built-in BBQ, bar fridge, stone benchtops and ample space to host in style all year round.

Whether you're entertaining guests, enjoying quiet evenings with family, or gathering around the fire pit under the stars, this home has been designed to create lasting memories.
