By Appointment.

Why wait years to build when you can move straight into this stunning, ready-made showstopper in Flinders View?

Set on a spacious 708m<sup>2</sup> block, this five-bedroom residence has been completely reimagined with a perfect blend of style, comfort and a hint of sophistication.

From the moment you arrive, you'll see it's not your average home - the street presence alone is exceptional, featuring striking stacker stone accents, timber screening and a sleek ply-lined carport ceiling with downlights that set the tone for what's to come.

Step through the front door and it's instantly clear how much thought and care has gone into every inch of this home. Warm timber finishes add character and charm throughout, while the master suite is nothing short of a private retreat - complete with a spacious walk-in robe and a designer ensuite highlighted by a showstopping timber-tile feature that wouldn't look out of place in an interior design magazine.

The main bathroom and laundry continue the same refined style, combining practicality with polished modern design.

You'll love how generous the living zones are - from the oversized lounge room to the expansive family area with a custom TV nook, stylish timber shelving and classic French doors that open straight onto the entertainer's deck.

This deck is a true extension of the home, fitted with a ceiling fan, feature ply ceiling and downlights - the perfect backdrop for weekend barbecues, evening drinks or lazy Sunday afternoons.
