From the moment you step inside, there's a sense of space that works. A generous lounge offers a comfortable retreat, separate enough to unwind, while the open plan kitchen and dining area keeps everyday living connected and functional. It's a layout that suits real life & whether that's quiet nights in or having a few people over.

The kitchen sits at the centre of it all & has been newly installed & linking seamlessly to the dining space and flowing through to the outdoor area. It's practical, easy to navigate and perfectly suited to both daily routines and weekend entertaining.

All three bedrooms are well-sized and positioned for privacy, serviced by a central bathroom with two newly installed toilets. Floating timber floors and tiles add a fresh, low-maintenance finish throughout, while gas heating provides a cost-effective option for year-round comfort.

Step outside and you'll find a covered outdoor area that extends your living space & ideal for a morning coffee, a casual barbecue or simply enjoying the fresh coastal air. The garden is intentionally low-maintenance, supported by a spear pump, giving you more time to enjoy the lifestyle Iluka is known for rather than spending weekends on upkeep. Set on an easily maintained Torrens Title 420sqm block and not in a flood zone, this is a property that offers both peace of mind and practicality.

Additional upgrades include newly repainted gutters and eaves, while the home is solar powered & with no power bills since installation & adding real long-term value and efficiency. The double garage adds another layer of practicality, offering secure parking plus room for storage, tools or all the extras that come with coastal living.

This is easy living. Lock-up-and-go if you want it to be, or settle in and make it your own. Everything about the home is designed to simplify your day-to-day while still giving you the space you need.
