By Appointment.

Every now and then, a home comes along that gets your imagination racing-this is one of those moments. Tucked onto a flood-free 812m² block, this 1920's single gable bungalow is ready to be transformed into the dream home you've always wanted.

Picture it: tongue and groove walls freshly painted in soft, modern tones, sash windows restored to their former glory, and the charm of those original breezeways and French doors opening onto a beautifully styled sleepout. The bones of this home are already steeped in character-now it just needs your creative vision to bring it all to life.

The heart of the home, the kitchen, still holds its original glass display cabinetry and generous layout. Reimagine this space with stone benchtops, sleek new appliances, and a clever mix of old and new design elements that nod to its 1920's charm while offering every modern comfort.

Four generous bedrooms give you endless possibilities-think private sanctuaries filled with natural light and space for family or guests. The bathroom is crying out for a luxurious makeover-free-standing bathtub, walk-in shower, and elegant finishes that perfectly blend character with contemporary style.

Entertaining will be a dream here. Envision French doors opening out onto your back deck that flows seamlessly into a landscaped yard where kids play, friends gather, and long afternoons turn into evenings under the stars. Underneath, the storage and workshop areas can be transformed into practical spaces that work just as hard as the rest of the home.

The location ties it all together-you'll be walking distance to local schools and a charming shopping precinct, with quick and easy access to the Warrego Highway for those commuting into Brisbane or Toowoomba. All other amenities are just a short drive away, making life here as convenient as it is exciting.
