**Open for Inspection**

By Appointment.

There are homes you simply walk through... and then there are homes you feel the moment you arrive.

Perched proudly on an elevated 3-acre parcel in the tightly held Summerholm Valley, this beautifully renovated residence delivers the kind of lifestyle buyers dream about - peaceful, private, and framed by breathtaking panoramic views that change colour with every sunset.

From its commanding position on the hillside, this home embraces everything we love about country living - wide open spaces, fresh air, terraced gardens, and a postcard-worthy backdrop that makes every day feel just a little bit special.

Step inside and you're instantly greeted by warmth and character. High ceilings create a wonderful sense of space, polished wide timber floorboards shine underfoot, and an ornate timber archway adds a timeless touch - quietly reminding you that homes like this don't come along every day.

At the heart of the home sits a classic country-style timber kitchen - equal parts practical and beautiful. With generous bench space, ample storage, dishwasher, it's designed for family meals, long conversations, and entertaining with ease. Best of all? Three picture windows frame the valley beyond, so even doing the dishes comes with a spectacular view.
