The open dining and living areas have been newly fitted with Tasmanian Oak vinyl plank flooring flowing through to the hallway connecting the bedrooms. The bathroom is perfect for a family with shower, bath and separate toilet.

The practical kitchen has been designed with ease in mind - with built-in oven and grill, double sink and plenty of overhanging bench space to be used as a breakfast bar. Also a walk-in pantry towards the laundry helps to free up even more storage.

Stunning landscaped garden featuring established citrus trees, weeping roses, Hill's Hoist clothesline and gazebo. The gazebo has a brick barbeque, bench and surrounding shelves with a wrap around shade cloth to keep the area cool and great place for newly potted plants. There is also access to the side of the property and a concrete area at the front - perfect for the trailer or possible camper.

Downstairs features two separate garage doors with a clearance of over six foot. From underneath, you will see the expansive storage that continues under the home and the hardwood floors that exist under the current floating floors. A 400L instantaneous heat pump hot water system is not only energy efficient but has been very reliable.
