House 2  1  2 

Fishermans Shack

This lovely old stone cottage is situated so close to the water. It must be one of the originals to American River. Cosy and clean inside it offers two bedrooms and a main living area with kitchen, dining and living combined and a separate bathroom. It has a large combustion heater to warm the whole cottage for those chilly nights. Just a stones throw from the waters edge, nestled in the shrub. There is a garage with power out the back and a separate laundry room. This is furnished and would suite a single or couple. No pets.
