Water security is a key strength, highlighted by extensive river and creek frontage, a reliable bore and a reticulated trough system servicing the property. A 60ML Water Access Licence (WAL) also forms part of the aggregation and may be apportioned subject to negotiation.

Established infrastructure further supports the operation and includes well-maintained cattle and sheep yards, a hay shed, two-stand woolshed and good internal access roads throughout the property.

Additional improvements include a substantial five-bedroom homestead positioned in a picturesque elevated setting overlooking the fertile flats and creek. While the residence requires significant renovation, all essential services are connected, providing an excellent foundation to restore the home or establish a new rural residence in a truly outstanding location.

Held and successfully operated by one family for more than 45 years, "Wirringulla" represents a proven and versatile rural holding in a tightly held and highly regarded agricultural district.

Located just minutes from Merriwa in the Upper Hunter region of NSW. Contact the selling agents for a copy of the Information Memorandum or to arrange your inspection.
