The spacious living room sits at the front of the home, opening through a glass sliding door to a large undercover entertaining area and the inviting inground saltwater pool — perfect for cooling off and creating lasting family memories.

The living area flows seamlessly into the open-plan dining and kitchen zone. The island breakfast bar doubles as a casual eatery and gathering hub, while generous cabinetry, a walk-in pantry, stainless steel rangehood, and gas cooktop make cooking a joy.

All four bedrooms feature built-in robes, ceiling fans, and quality window furnishings. The main suite is a generous retreat with its own fully tiled ensuite. The family bathroom is equally impressive — fully tiled with a full-size bath, separate shower, and vanity, plus a separate toilet for convenience.

Outdoor living is front of mind, with an additional patio on the eastern side of the home complementing the large western entertaining area beside the pool. The kids will love it!

A powered workshop sits at the rear of the property, surrounded by established tropical gardens that enhance the tranquil poolside ambiance.
