House 2 1 1

Sweet, Neat Not Quite Complete

Sure, the outside needs a little TLC but inside this home you will be surprised at how comfortable it is. A lot of the hard work has been done, new carpet, new paint new light fittings and the kitchen is big, with plenty of cupboards and warmed by a pot belly stove. There's 2 big bedrooms with built-ins and the central lounge is spacious and inviting and there is a separate dining room. The bathroom is freshly painted, clean and neat. You will love the backyard – it is well fenced and has a lovely shade tree and a single garage. What a great place to start.
