Delightfully Different Mountain Views

Architecturally designed, this unique home offers peaceful hinterland views from most of the living areas and includes the luxury of your own sauna. A clever multi level floor plan separates 3 of the bedrooms from the living via extensive merbau decking. A 4th bedroom is located in a tower above the lounge room and features the warmth of red cedar in the ceiling. The views from here on a clear day are superb. A curved galley kitchen, lots of interesting nooks for storage. The 5 acres with Jacaranda and flame trees, within a small amount of lawn and so much more await your discovery. Located approx. 7kms to Valla's vast uncrowded beaches and half an hour to Coffs Harbour airport, you can retreat in the most delightful way.
