

Alstonville, NSW 2477, address available on request

Sold - 11/05/2012

House 4 3 2

ONE OF A KIND

This incredible property is one of a kind. With touches of Tuscany, soaring ceilings and a sweeping staircase to a second floor with three bedrooms and a 2-way bathroom for guests or teens. The downstairs master bedroom has an en-suite with an atrium style outdoor garden, large walk-in wardrobe, marble bench tops, a spa of course and a sitting area complete with a bay window that overlooks the saltwater inground pool. The quarter acre block leaves plenty of space for gardens and play.

Open for Inspection

By Appointment.

A solid timber kitchen looks over the lounge room that has another bay window and fireplace to snuggle around on the cool winter nights. The second living area could be used as a T.V. or music room. The stunning foyer evokes visions of romantic candlelight dinners. Just add a little music and pour a great wine. The home is in fact wired for sound, has a ducted vacuum system, solar panels and so much more. The study is perfect for a computer room away from the rest of the house.

There are so many dimensions. Simply beautiful. Call Carol to inspect this unique property.
