night

House 4 3 2

Coco Cabana

Come and get away from it all and spend some time at Coco Cabana – a private and relaxing home positioned in the popular Solander Estate.

Open for Inspection

By Appointment.

Coco Cabana lives at the end of a private cul-de-sac where there is no-through traffic and walking around the Solander streets is an absolute delight. The famous four mile is just a short walk around the corner – wake early and catch the sun rise above the Coral Sea, or take a hamper to a warm moonlit night on the beach!

After a day out at the Reef or the Daintree, or if you are just kicking-back with that Port Douglas feeling – imagine coming home to your own place. A holiday home where you can relax under the palms with a private pool setting and outdoor living area. It is simply glorious.

Coco Cabana has a certain charm and a character all-of-its-own. The flowing floorplan is easy to live in and feels very relaxed. Plantation shutters all the way through provide a calming outlook to the private outdoor environment – while in the main bedroom and studio-retreat, you can lay in bed and look out to the pool. Think of an ambient breeze off the Coral Sea or a warm rain shower with the windows open – or simply being able to enjoy a peaceful connection to the tropical gardens and birdlife that will bring a peace to your time at Coco Cabana.

Inside & Out, Coco Cabana has everything you need for a very comfortable stay.

It has been beautifully furnished through two living areas with quality lounge settings, new appliances in the kitchen include a coffee machine, Miele oven, cooktop and dishwasher. There are ceiling fans in every room, and when those evening breezes aren't there – the entire home has ducted air-conditioning for complete comfort.

The open plan main living areas are nice and relaxed – the six-seat dining table looks out the coconut palms, there is a spot by the window to chill-out with a couple of swivel chairs, while lounging around the TV will be a treat! There is a wireless Bose sound speaker for tunes, and WIFI internet connection. A second living zone has a two-seat lounge – a great spot for a good book and with a large open rug area for the yoga mats or as a kids play area. From the kitchen, a great feature is the bifold windows with a retractable screen that opens to the barbeque and outdoor entertaining area.

The main home has three bedrooms and two beautiful new bathrooms with large walk-in showers!

Bed one looks out to the pool – it has a kings-size bed, TV, ensuite and walk-in storage.

Bed two looks out to lush front gardens – it has a queen-size bed, TV, built-in storage/desk nook.

Bed three for the kids has two singles and built-in robes.
