House 4 2 1

Retreat at Home

The first step to enjoying pure serenity at home is a tranquil setting, & with this location & plenty of greenery, this property certainly ticks that box. The layout itself enhances this feeling with two separate & fully self contained living quarters. The upper level of this home provides a great sized bedroom with ensuite, walk in robe, kitchenette, laundry, combined living & dining & its own personal balcony, making it an ideal retreat for teenagers, parents or even for guests or extended family. The rest of the family will be just as relaxed on the lower level with 3 good sized bedrooms, country style kitchen, large dining room & good sized living area. Even the outdoor entertaining area & back yard are fantastic places to relax. An absolute must see property.
