Diggers is popular with locals as it is one of our favourite beaches, a short stroll to the coastal walk that allows access along our beaches into Coffs Jetty.

A master built home designed for a family that appreciates personal space for its individual members as well as two large living areas for family and friends. The large open planned kitchen and wet bar offer a large family room, with a wood fired combustion burner and air-conditioning.

The lounge room at the front of the home is a second sanctuary with a formal dining room joining the two living rooms.

The kitchen is designed for entertaining with plenty of bench space and a huge pantry.

Undercover patio and barbeque area at the rear of the home is very private.

A large office with side access would allow a consulting or professional room without encroaching on the family.
