Sold - \$1,300,000

House 4 3 6

An Absolutely Fabulous Agricultural, Equine or Lifestyle Pro

Situated in the Bellingen Shire a few minutes drive west of the Pacific Highway, is this stunning architecturally designed Feng Shui designed residence and 50 acres.

Open for Inspection

By Appointment.

This outstanding property will suit you, your family and friends being a three bedroom family home with separate, self-contained accommodation and a magnificent separate home or commercial office.

The entrance to the property is just the beginning of beautifully landscaped gardens in every direction. The 50 acre property is surrounded on three sides by State forest and only a short drive away are some of the best beaches on the north coast including Valla Beach and Hungry Head.

Bellingen is 15 minutes drive away and Coffs Harbour and the airport are only a 20 minute drive.

There are relaxing views of the magnificent fresh water lily lake from all rooms and large wooden verandahs. Of brick and timber construction with hard wood floors, this 3 bedroom home with separate guest accommodation (with private facilities) and spacious timber office is paradise.

Each bedroom has doors onto private balcony space and natural timber walkways bring the three pavilions together. Many different bamboos, palms and Australian natives blend with the cascading waterfalls to fish filled lily ponds.

This property will suit your family or a professional working from home or anybody seeking an idyllic lifestyle, organic farming, bed and breakfast or horse lovers - together with the dreadful thought that it is suitable for future subdivision!

Undoubtedly one of the most beautiful properties in the region positioned and designed to take full advantage of the cool sea breezes; surrounded by beautifully landscaped gardens and pristine, undulating grounds that will take your breath away.

A rare mix of eco-friendly design, beautiful timbers/bamboos, natural materials and sustainable building products, its character is matched by its function - a superb combination of rustic charm with a modern, yet timeless finish solar powered of course.

Distinctly described as 'soaring, vaulted ceilings, luxurious, expansive and comfortable interiors with timber walkways seamlessly connecting each pavilion through a central Zen garden of various bamboos, palms and natives with cascading waterfalls into fish filled ponds'. Would
