This land runs from areas of creek flats through to basalt hills and plateaus full of old scrub trees and with a bit of clearing of the regrowth it would come back to Kikuyu pastures.

Improvements include a large 3 bedroom semi renovated timber home with high ceilings, some polished floors, as new kitchen with island bench, as new bathroom and a comfortable timber deck to relax on.

The house has an open plan living area with a dining room, spacious kitchen and lounge.

Other improvements include a rustic car shed, 22,500L Rainwater tank and an old set of stockyards plus 2 dams.

"Brigadoon" has heaps of potential and is a must to inspect.

Contact Mike Smith or Lance Butt asap, as land in this area does sell quickly and rarely comes on the market.
