There is a new 3m covered front and rear verandah to capture the panoramic views of the ranges and the beautiful gardens. The front verandah's can be accessed via two bedrooms as well as the living areas.

The land at the front runs from gently sloping flats perfect for horses, cattle, goats or any other livestock back into steep timbered ridges joining the national parks.

Water is in abundance with two spring fed dams, a gravity feed water system which gives you an enormous amount of pressure water for the gardens and two rainwater storage tanks for drinking water.
