Looking modest from the street, this contemporary home must be inspected to understand the sheer interior floor space and soaring high ceilings. Unfolding over two substantial levels this property has ample room to accommodate large families and/or buyers looking for dual living.

The abundance of living space means that entertaining in this home is a breeze. Upstairs offers multiple informal and formal living areas as well as the kitchen which is perfectly positioned to allow you to stay engaged in food preparation and socialising. Your kids will be dying to invite their friends over for a swim in the sparkling pool or separate spa while you can watch from the large alfresco entertaining area.

The luxurious master suite is separate from the other bedrooms and offers a walk-in robe and stylish ensuite. Two of the additional bedrooms are king sized and feature walk-in robes serviced by the well-appointed main bathroom. The fifth bedroom is located upstairs at the front of the home and could be used as a home office if required.

Downstairs is perfect for dual living, a teenagers retreat or a guests area as it features an enormous living area, kitchenette, bedroom, home theatre and additional room which could be a kids playroom, gym or study, the options are only limited by your imagination.

The grand design of this property is a credit to the current owners who built it to maximise functional family living. Whilst sad to be downsizing, they have purchased elsewhere and are motivated to have this property sold.
