A home for all the family

The multi-levelled floor plan of this unique home at 59 Macquarie Street here in Jamberoo offers the opportunity to live separately but under the one roof. Extended families, teenagers, B&B, opportunities are endless. The upper level looks out over the village and farm land to the escarpment and from the back garden to rural paddocks with the occasional stock as your neighbours. The entry level has plenty of open space while still accommodating 2 bathrooms (incl 2 toilets), double bedroom, kitchenette, timber and unique tiled floor, and 2 sets of double doors that open out to the north facing cottage garden. The transformed garage area still maintains the roller shutter doors should a new owner wish to take it back to the very large original double garage. Upstairs the 3 bedrooms, main bathroom, powder room, large spacious living area, kitchen and casual eating area are light, bright and very inviting for a new owner. The undercover outdoor paved entertaining area is easily accessible to the kitchen and covered carport for 2 cars, for flat entry.
