Tall trees and a tranquil atmosphere are right here where you can forget the rest of the world exists. This is your safe haven from city pressures, 50 peaceful acres within 15 mins to the freeway, and half way between Sydney and Canberra.

Situated at the end of a no through road with a power pole just outside the front gate, this secluded wooded area is the perfect place to build your dream home with a building envelope already cleared for you.

The ultimate place for adventure with tracks and trails throughout, making it ideal for motor bike or horse riding, bush walking or just sitting back and taking in the crisp country air. There is a natural water course which meanders through the length of the block and native animals and birds can be seen among the majestic gums. With a lifetime supply of timber for those cool Southern Highland nights and a relaxing setting, there is no better place to hang your hat. This is where peace and quiet reigns supreme.
