By Appointment.

Welcome to a home with mountain views.

Flood free block with side car access and plenty of room for a shed.

As you walk through your front door to your new home you are greeted with large open planned spacious living, Kitchen and dining areas. Your eye can't help but focus on the beautiful timber benches and black tapware. The Living area is also air-conditioned so you get the space, liveability and comfort. Quality hardwood floors just dying to be polished, will come up a treat. The 3 generously sized bedrooms have plenty of room for King and Queen beds and the main bedroom has a built-in cupboard.

From the kitchen you flow out on to the rear deck and have uninterrupted views of the mountain side.

Downstairs we have a two car lock-up with plenty of space for a workshop and all your tools. There is also a utility room with a built-in cupboard with plenty of options.

The large block means you have more options than you can poke a stick at. And not to forget the side car access perfect for a large shed in the future. (STCA)

This property is where location meets potential. It's a renovator with bucket loads of promise. Come one come all.
