House 4  1 

A Contemporary With Style

A beautifully renovated contemporary style home. The floor plan is versatile and offers the flexibility of a fourth bedroom, home office, study or second living room - you decide.

Built-in robe to master, lovely floor coverings and the kitchen and bathroom are renovated. The home feels bright and airy after the original block was sub-divided. It has left us with a very modest low maintenance block. Still packed filled including an enclosed sun room again it caters for multiple uses.

You know homes are not lasting so don't delay. Oh! By the way did I say it looks out to a lovely reserve? A no facing neighbours front yard. Simply move in and enjoy.
