House 2 1 1 2

## Solid Home, Downtown Address

It is what it is, an older home that has had some upgrades over years and ready for a few more, but that is reflected in the price. What it has is a great downtown location right opposite the town pool, and a short walk to the shops and Diggers Club. Inside the house it is neat, in good condition and comprises a central separate lounge, roomy kitchen with separate dining area, a usable bathroom that only needs a refresh and 2 generous bedrooms. Outside is a lockable garden shed and garage, established well maintained gardens all on a fenced quarter acre. No frills but no real disasters either. Check this location and call me to see this property.
