You Can't Beat an Original

If you like a home full of country character, you can't beat the appeal of a genuine original. Fret work, detailed corncicing, high ceilings and original vj's throughout ensure the pioneering country charm of this home endures. 4 bedrooms plus a sleep out, large lounge room, this can still be a family home with some work to the modest kitchen and bathroom. Outside you find well tendered gardens, a fully fenced yard, a high bay shed and small storage shed. With no record of the home being ever out of the current family's generations, you'll be right at home in this original.
