Very deceiving from the road, you will be pleasantly surprised upon entry, how effortlessly this home flows from the formal areas through to the spectacular casual living room. The central kitchen with Granite bench tops and breakfast bar, overlooks the bright informal living spaces and has magnificent garden views from every window plus, raked ceilings for that spacious feel. The two bedrooms are large and equally as impressive as the master, both oozing sunshine and light, as does the impressive main bathroom.

Set among the most magnificent established grounds, one can stroll on the pathways, weave in and out of the gardens and discover something colourful and pretty around every corner. There is even a pond thriving with Lillies and other water plants.

Showcasing evergreens, natives, exotics, shrubs and plants too numerous to mention, this home and its surrounds, is the epitome of creativeness inside and out.

Enjoying double car garaging including amenities, there is plenty of storage space and potting areas for the green thumbs.

All of this 15 minutes' walk to the main street, public transport and everything beautiful, Bundanoon has to offer.
